ABOUT THE ARTIST

Paintings and drawings by Yashar Salahi (Iran 1978) show subjects related to Iranian society, often through satirical forms structured and presented poetically. Using pigment liner pen on paper and ink & ecolin on cardboard, Salahi releases his phantasmagorical beasts, expressionless faces, and brittle structures to the public. His works have been featured at numerous auctions and art platforms including here at Collectionair, where we have presented the manic artist at his peak visual absurdity.
