ABOUT THE ARTIST

Lucia Pizzani's art prints, photographs, and sculptures capture impossibly heavy, brief moments loaded with possibility. Her prints, often composed using powdered pigment and water, speak to the transience of existence. Being the prodigal daughter of prominent Venezuelan artists, art has been a close presence in Pizzani's life since childhood. Her works have been exhibited internationally in museums and galleries such as Cecilia Brunson Projects, London; House of Egorn Gallery, Berlin; ArtExchange, Essex University, Colchester.
