ABOUT THE ARTIST

Cristian Chironi was born in Nuoro in 1974. Lives and works in different places in the world. He studied at the Academy of Fine Arts in Bologna. He uses different languages, including, performance, photography, video, drawing, often creating an interaction among these languages. He works on site-specific performances and installations, always looking for a synergy within the context, be it human (public) and environmental (space). His research aims to relate image and imagination, fact and fiction, memory and modernity, conflict and integration, material and immaterial.
